

# Spotted Lanternfly

## IPM Outreach and Management in New York State

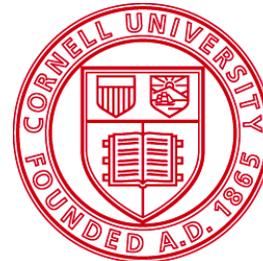

# State Incident Command Structure for SLF

Department of  
Environmental  
Conservation

Agriculture  
and Markets

Cornell University  
Cooperative Extension

# Singular Point of Contact

[spottedlanternfly@dec.ny.gov](mailto:spottedlanternfly@dec.ny.gov)

# Agricultural settings

- Raise awareness of the potential presence of this pest
- Teach pest identification
- Teach identification of the common host , Ailanthus (Tree of Heaven)
- Investigate management options
- Teach ways to reduce risk of spread on equipment, vehicles and other objects

# Community settings

- Focus on detection and identification
- Raise awareness of the potential presence of this pest
- Teach pest identification
- Teach identification of *Ailanthus* (Tree of Heaven)
- Teach ways to reduce risk of spread on equipment, vehicles and other objects

# Create educational resources

Developed for both ag and community audiences

Resources

- Pest Alerts

- Identification Guides

- Slides

- Videos and Webinars

- Management Guidance

- Central website for SLF information

# Training

NYS IPM Program will provide training to;

- CCE Educators
- Agricultural producers of grapes, hops, apples, hay, dairy and ornamentals
- Master Gardeners
- State Agency personnel (e.g. NYSDAM, DEC, OPRHP)
- Landscapers
- Produce auction personnel
- Advise NYSDAM on outreach to cideries, wineries and breweries

# FIFRA 2(ee) Recommendations

- Facilitate approval of pesticide registrations for SLF on known host crops in NYS.
- Facilitate approval of pesticide registrations for SLF for homeowner uses.
